

Portland State University
Electrical & Computer Engineering
Power Engineering

-FAB 25 Badge Access Policy-

Badge access to FAB 25 will only be granted to students who meet the stated requirements. Students who do not abide by this policy will have their keycard access revoked.

Teaching Laboratory Students

Requirements:

- enrollment in a power-related engineering or capstone course
- passed the electrical safety quiz
- must have a lockout tag and lock in the lab
- agreed to abide by the laboratory lock-out-tag-out policy
- shall help ensure the lab is clean, trash is disposed, and tools are returned
- shall ensure others abide by this badge access policy

Permissions:

- keycard access to FAB 25
- 24/7 access to the teaching laboratory space within FAB 25
- may use tools from the teaching lab toolbox
- may not accompany non-badged guests

Research Students and Teaching Assistants

Requirements include all those mentioned above, plus:

- a research assistant, teaching assistant, or grader for a power engineering faculty member.
- permission from a power engineering faculty member, either Dr. Bird or Dr. Bass.

Permissions include all those mentioned above, plus:

- 24/7 access to the graduate research lab spaces, graduate student office space, and kitchen
- may accompany non-badged guests

Initial _____

Keycard Request Form for FAB 25:

Bring this form, a signed copy of the lab lock-out/tag-out policy, and a screen shot of your electrical safety quiz results to the course TA. The TA will deliver these documents to a power engineering ECE faculty member.

Student has passed the electrical safety quiz
